Online Training Program on Sexual Disorders for Primary Care Physicians

Radwa Said Abdelazim Elfeqi¹

Although sex was depicted by the ancient Egyptians with tomb carvings/paintings, papyrus, and sculptures—The Turin Erotic Papyrus dating back to 1105 BC illustrated at least 12 sex positions, followed by the first sex manual in history “The Kama Sutra” written in India in second century BC entwining mind body and soul in techniques of sexual pleasure enhancement—yet sex is still a taboo wrapped in holy myths for many societies awaiting to be unraveled and justified as if we are experiencing regression on this subject matter!

under religious pretexts by physicians who believe it could be better for the female victim in order to decrease her damage and risk of infection during the procedure, for if left alone or reported the family; the operation would still be done by the family in a nonsterile environment, where the female would bleed to death or die from sepsis. Is the physician overlooking the drastic biological and psychological sequels that will affect that female and her possible future partner? Is the
