

Waste to Art Competition

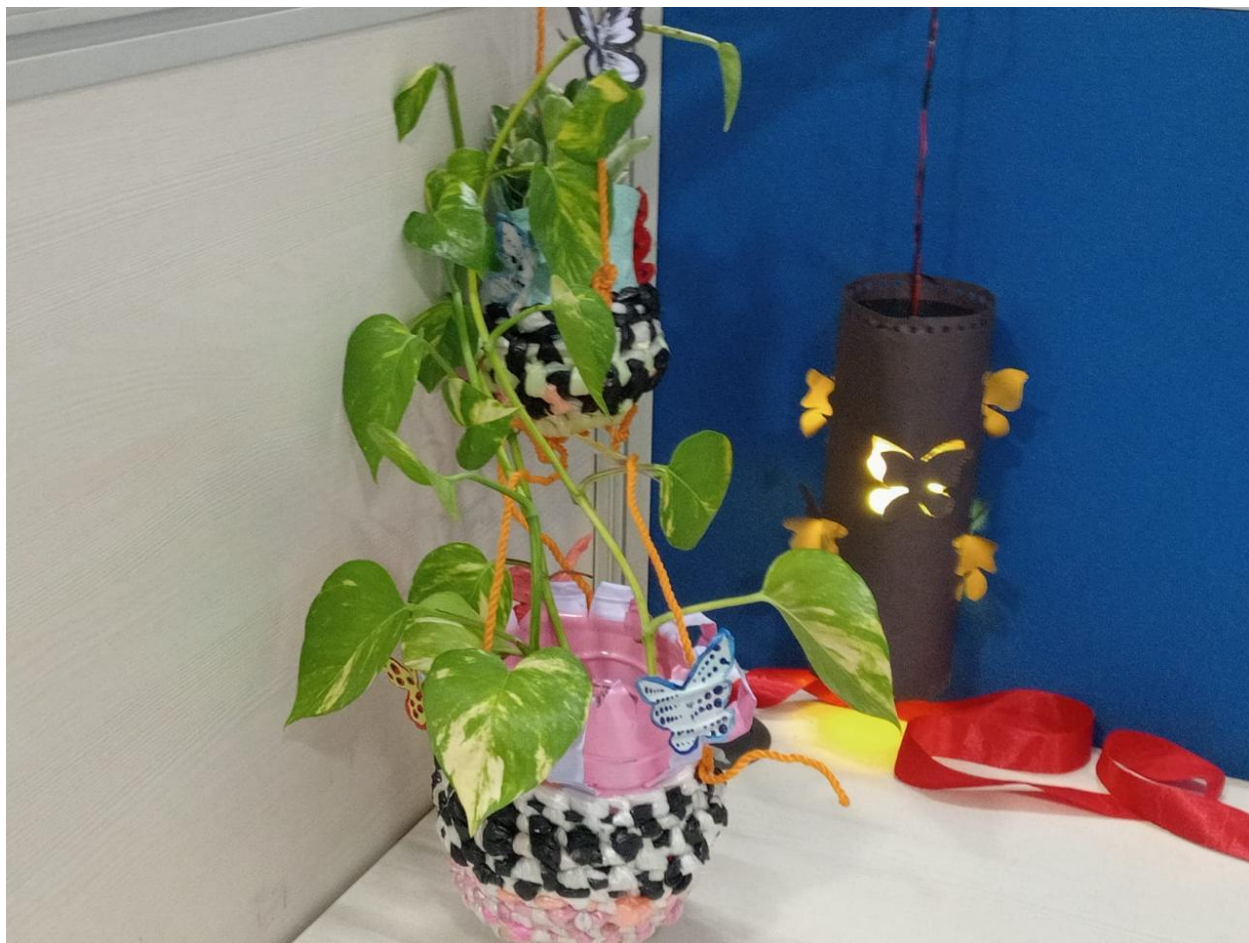

An innovative programme, "Waste to art" was organised by department of Obstetrics and Gynaecology, KGMU on 28 September, 2024 as a part of "SWACHHATA HI SEVA (SHS)" campaign.

Many undergraduate students of MBBS 2022 & 2023 batch took part in the competition. It was a vibrant showcase of students' innovative ideas and craftsmanship. Students made various useful articles and show pieces using waste material. Exhibition featured 20+ pieces of art including hangings made out of knitted plastics, pots and vases out of plastic bottles, newspaper quilling art etc. These exhibits not only emphasized creativity but also promoted sustainability and environmental awareness.

Exhibition was not just a display of skill but a celebration of student imagination, creativity, and a deep appreciation for the world around them.

It helped create awareness among students regarding reduce, recycle & reuse to save the environment.

Some exhibits are attached below

Created by braiding polythene bags

Created using old CDs & masks
