

NEWS LETTER 2022

Department of Obstetrics and Gynaecology King George's Medical University

Dear Friends,

The department of Obstetrics and Gynaecology is proud to release the Newsletter on the occasion of 90th Foundation Day.

After battling the COVID 19 pandemic for last two years, we have bounced back maintaining our glorious past of treating thousands of patients every year. Treatment includes most advanced and complicated procedures to everyday ailments in all areas of obstetrics, and gynaecology including adolescent and menopausal health, infertility and oncology.

We use state of the art technology and cutting edge surgical and medical techniques to deliver outstanding outcomes.

Now with new ray of hope and with full enthusiasm, we are continuing our best services in IPD, OPD & emergency care.

New facility added to the department

- Two students are pursuing higher sub-speciality courses under PDCC program in Fetal Medicine and Fellowship program in Gynae Oncology.
- Obstetric ICU & HDU running smoothly with central monitors and now with total 6 Ventilators including 1 Portable Ventilator.
