Curriculum implementation support Program

King George's Medical University (KGMU) - Nodal Centre for Curriculum Implementation Support Program (CISP) training

• Regular training programs for both in-house and external institution faculty.
Primary objective:

- To equip faculty members with the necessary skills and knowledge to effectively implement the curriculum and adapt to changes made by the National Medical Commission.
- Provides updates on recent amendments made to the curriculum by the NMC, enabling faculty members to adapt to these changes and implement them effectively.

The CISP training program conducted by KGMU's Nodal Centre has been instrumental in enhancing the capacity of faculty members to implement the curriculum effectively. The program's regular updates on NMC curriculum changes and training for core curriculum committee members have ensured that KGMU is well-equipped to deliver high-quality medical education. This initiative demonstrates KGMU's commitment to excellence in medical education and its dedication to staying updated with the latest developments in the field.
