Annual Report: Examination Cell

This year, the COE office successfully conducted examinations for various university programs, with a total of 5,580 candidates appearing in the 2023-24 academic year. To facilitate these examinations, 868 sets of question papers were meticulously prepared. The pass rates for the programs ranged from 75% to 100%, and the average time for result declaration was an impressive 14.7 days. Additionally, the percentage of examination-related grievances was reduced to 0.09%, a notable improvement from last year's 1.03%.

The Office of Controller of Examination has successfully implemented and managed various critical examinations and initiatives aimed at improving the academic and administrative efficiency of our institution. The key activities over the past year are as follows-

DIGITALIZATION INITIATIVES

Thesis Submission and Evaluation

We have fully digitalized the process of thesis submission and evaluation. This initiative has streamlined the workflow, making it easier for students to submit their work and for evaluators to review and provide feedback.

EXAMINATION PROCESS ENHANCEMENTS

Blueprinting of Question Papers in Medical Stream

We have introduced a standardized blueprinting process for question papers in the medical stream. This ensures that the examination papers are comprehensive, balanced, and align with the learning objectives and curriculum.

Feedback-Based Changes in Examination Conduction

Based on the feedback from invigilators, we have improvised the pattern of question paper and its conduct to prevent cheating and maintain the integrity of the examination process.
