PPH Emergency Care Using A Bundle Approach
Facility Training Schedule

Phase III Training

- The objective of PPH Emergency Care training is to improve the quality of PPH emergency care at facilities that perform deliveries.
- While the goal is to strengthen the PPH emergency response in order to decrease maternal morbidity and mortality, integral to the program is the understanding that strengthening a clinical response requires more than training providers on clinical skills.
- It is a three days training.
- 2 Day online & 1 day in person training of "PPH Emergency response care using a Bundle approach" was conducted in the Department of Obstetrics and Gynecology for doctors from five peripheral hospitals/facilities.
- We have completed total 4 batches
- Total 100 Participants were trained in 4 batches on the following dates

– 25th -27th Aug 2021 – Batch I
– 1st-3rd Sep 2021 – Batch II
– 7th,8th &10th Sep 2021 – Batch III
– 13th-15th Sep 2021 – Batch IV
