RECOGNITION AND AWARDS

- ❖ Federation of Indian Chambers of Commerce and Industry (FICCI) awarded “**Health Care Excellence Award**” to KGMU in the category *Training and Skills Development Initiative of the Year*, October 2024. This is second consecutive year when KGMU has been awarded the FICCI Health Care Excellence Award.
- ❖ Virus Research and Diagnostic Laboratory (VRDL) Lab under the Department of Microbiology has been awarded *Recognition of Excellence* for being top VRDL in the country in the category of *Public Health & Research*.
- ❖ The Department of Health Research funded *Multidisciplinary Unit (DHR-MRU)* at the King George’s Medical University, Lucknow has been awarded **for one of the best Multi-disciplinary Research Unit of the Country**. The award was presented at the DHR ICMR Health Research Excellence Summit 2024 on 14th Oct 2024. The excellence award was received based on the research achievements of the MRU at the King George’s Medical University. The DHR MRU is having research facility for basic genomics, proteomics, cell culture and 3D printing and Surgical Planning. MRU at KGMU is the only MRU in the country with 3D printing facility.

INFRASTRUCTURAL ACTIVITIES

❖ CSR Initiatives:-

- ***Patient Relatives Accommodation (PRA)*** With the Financial Support of 36 Cr from **ONGC** under **CSR**, the **(PRA)** building is being constructed for the proper accommodation of relative of patients getting treatment in KGMU. The 12 floors PRA Building equipped with all necessities like lifts, solar power will facilitate the easeful accommodation of the over 1300 Patients Relatives in this building.
- ***Bone Marrow Transplant Unit(BMT) in Hematology Department:-***With the Financial support of Rs. 2.77 Crores from **Aditya Biral Capital Foundation** under **CSR** and with Technical Support of **Cankids NGO**, **The** (BMT) unit is being established in the Department of Hematology, KGMU. To provide transplant services for patients with blood cancer and immune deficiency diseases. This facility is a major step towards improving treatment options for critical cancer patients.
- ***HIPEC & Electrochemotherapy Machine:-***With financial support of Rs. 10 crore from **Power Finance Corporation** under **CSR**, the University have established high class sophisticated equipment for the treatment of cancer. These high class equipment will enable the University to provide advanced treatment for cancer that cannot be managed with medicine or regular procedures. These equipment will significantly enhance the university's cancer treatment capabilities.
- ***CoE for Clinical Trails & Center for Artificial Intelligent:-*** KGMU is aiming to establish CoE for clinical trails and Center for Artificial Intelligence with the CSR support. Few financial institution (private) have shown keen interest to support this initiative of KGMU. Soon it will executed.

KGMU FLAGSHIP PROGRAMS

❖ **Regional Resource Training Program (RRTC)** is the training program is being running from 2017 with the collaboration of UPTSU & IHAT with initiative directed towards strengthening of emergency obstetric and neonatal care services in the state of Uttar Pradesh which has completed phase 3 of Training in 2024 and was also awarded the FICCI award for Training and skill development initiative of the year on 5th November 2024.

- Phase 4 of the initiative has been started with new vigor and positive additions to the approach
- KGMU has developed modules for CPAP Training an important intervention to improve neonatal outcomes. GOUP has made CPAP machines available but medical officers were not trained to use it so as part of RRTC CPAP orientation workshop were conducted on 8th and 9th Aug 2024 and 39 doctors were trained in the use of CPAP
- The nurses were involved in the Training and mentoring under RRTC. A nurse facilitator guide was developed and released by Hon'ble Vice Chancellor KGMU on 11th June 2024 nurses of Dept. of Obst. and Gyn. KGMU have already been taken on board and a plan involving nursing faculty in Training was also drawn up and will be implemented in beginning of 2025.
- Two new trainings were initiated in collaboration with NHM and DG Training. First was a 12 days Training for surgeons to perform caesarean sections , second was a 14 day Training for gynaecologists in basic obstetric ultrasound. Both these trainings aim at improved and upgraded provision of obstetric care in first referral units and district hospitals.

KGMU FLAGSHIP PROGRAMS

- ❖ **Data Science Center:-** KGMU in collaboration with University of Manitoba, Canada has established a Data Science Center. KGMU with its huge patient load has lots of patient data to analyze for the following :-
 - To Improve Patient Care Outcomes in KGMU and network of Medical Colleges in UP & network of Medical Colleges in UP
 - To facilitate contextually relevant research endeavours to improve population health
 - Foster transformative innovations and enhance operational efficiency & resource optimization
 - The University has identified few important areas like SSPE (Sub-Sclerosing Pan-Encephalitis) to supplement Measles Surveillance, Pregnancy Referrals to KGMU (Referral Network) and urban health problems. The University of Manitoba will support KGMU in processing the data and acquire the outcomes.
- ❖ **CPAP (Continuous Positive Airway Pressure) Training** in collaboration with NHM, UNICEF and UPTSU, KGMU is running this program to improve quality care in SNCU's for better neonatal outcomes. Till now, under CPAP program **76 pediatricians** have been trained as trainers in KGMU and they in-turn are training doctors and nurses in SNCU's across the state. With the help of this program half of the SNCU's in UP have functional CPAPs with trained manpower with continued hand holding with visiting mentors.
- ❖ **Advanced Centre for Skill Development Program** is in fully operational which imparts ACLS, BLS (approved by American Heart Association) and ATLS (approved by American Society of Surgeons). We are in process to collaborate with Institute of Medical & Minimal Access Surgery Training (IMMAST) to establish a branch of the Institute to enhance the skills of healthcare professionals.

CLINICAL ACTIVITIES

❖ Patient Consultation in last one year:-

➤ OPD services	: 19 lacs
➤ IPD services	: 1.54 lacs
➤ Major Operation	: 30214
➤ Minor Operation	: 74904

❖ The Beneficiaries of Government Policies:-

➤ Ayushman Yojna	: 12102
➤ Pd Deendyal Updhaya Caseless Scheme	: 681
➤ Ashadhya Yojna	: 2644
➤ Vipann Yojna	: 4772
➤ JSSY	: 6388
➤ CM/PM fund	: 2768

❖ Daily Registration of Patients under Ayushman Bharat Digital Mission(ABHA) : 1500

❖ The other eligible patient are being provided free treatment under the following Welfare Scheme:

- Divyangjan Salya Chikitsa Yojna
- Rani Laxmibai Mahila Samman Kosh
- National Child Health Program

CLINICAL ACTIVITIES

❖ New Equipment's and Investigations:

- Upgraded **SSI Mantra 3 Robotic System (Mantra-III)** upgraded version is being installed in the King George's Medical University soon on PPP model with Wet Lab. The KGMU is the first Medical Institute in UP and the second in the country besides AIIMS-Delhi establishing Robotic Human Cadaveric Wet Lab for training of Surgeon from all over the country.

➤ Salient Features:

1. **Advanced Robotic Surgery Technology:** - Offers precision, flexibility, and control in minimally invasive surgical procedures. Enhanced 3D vision and real-time motion scaling for improved surgical outcomes.
2. **User-Friendly Interface:** - Intuitive controls with simplified ergonomics to reduce surgeon fatigue. Comprehensive training modules for quick adaptability by surgical teams.
3. **High Precision & Versatility-** Capable of performing complex surgeries across multiple specialties, including general surgery, urology, gynecology, and more. - Greater dexterity and precision with advanced robotic arms and end-effectors.
4. **Cost-Effective Solution-** Competitive pricing compared to international robotic systems, ensuring broader accessibility to healthcare institutions. - Significant reduction in operational and maintenance costs.
5. **Integrated Digital Ecosystem:-** Incorporates AI-based analytics and real-time data feedback for enhanced decision-making. - Seamless integration with hospital information systems for efficient workflow.
6. **Make in India Initiative-** Entirely designed, developed, and manufactured in India under the Make in India campaign, promoting self-reliance in advanced medical technology. - Supported by indigenous R&D, reducing dependency on imported systems.
7. **Under PPP Model-** Implemented through a Public-Private Partnership (PPP) model to ensure: - Cost Sharing: Collaboration between government and private entities for affordability. Infrastructure Development: Equipping public hospitals with state-of-the-art robotic systems. - Skill Enhancement: Training programs for surgeons and healthcare staff, fostering expertise in robotic surgery.

CIRCULAR

As per the earlier circular no vc/kgmu/163/2021, dated: 22 Oct-2021 online leave submission is mandatory for all faculty members.

It has been observed that there are few issues are causing confusion among faculty members and officials regarding online leave submission and execution of the online leave portal.

In view of above, the following SOP is being circulated for perusal and strict compliance.

1. Faculty applying for leave will log on to the Leave Module on Manav Sampada portal with their User ID Password. The leave shall be sent to the immediate reporting officer-Head of the Department/Incharge.
2. After that, the Head of the Department/In-charge will forward the concerned Leave to the Registrar with his login ID and password. The approval/rejection of casual leave and restricted holiday shall be by the respective head of the department/In-charge. Except for the first time, where the casual leave and restricted holiday have to be forwarded to the Registrar for the entry of leave balance if not filled.
3. The Registrar will forward it to the concerned section through his login id and password.
4. After leave balance entry, the leave request shall come back again to the Registrar.
5. The Registrar will send the leave to the concerned officer (Pro-Vice Chancellor / Vice Chancellor/ Head of the department/In-charge) with his login ID and password for action.
6. All faculty while applying online leave have to upload an attachment that indicates the name of the person taking care of clinical/administrative/teaching/work/duties in his/her absence. Faculty can use the previous hard copy leave perform for the same.
7. Also, All HODs while applying for leave to select reporting officer as Registrar,

Learning outcomes integrated into the Assessment process

Indian Medical Graduate

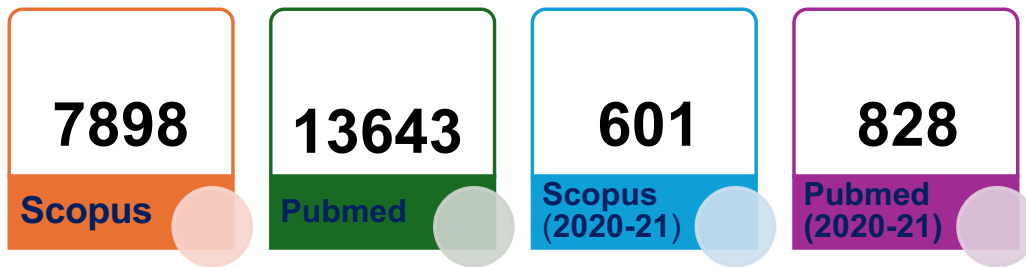

Outcome Level – Pass % over 95

Discipline		Competency / Sub-Competency
Medicine		Prescribe appropriate therapy based on lipid profile
		Counsel patient on diet and life style
Pathology		Interpret laboratory results of analyses associated with metabolism of lipids
Biochemistry		Describe main classes of lipids

Behaviour	Mini clinical evaluation exercises, directly observed procedural skills, 360°
	Objective structured clinical examination, long case
Cognitive	Problem-based multiple choice questions, essays, viva-voce, modified essay questions
	Essays, short answer questions, multiple choice question, oral examination, modified essay questions

Evidence of Success

Kayakalp award 2017

Special recognition to KGMU for the Biomedical waste management practices - state level trainings on BMWM and infection control to all the quality managers from various districts of UP

Approximately 565 doctors received training in 20 sessions in the year 2021-2022.

Waste management during Covid Pandemic at KGMU was given special recognition in the **WHO bulletin** this year

...solving the waste problem." Many hospitals have been implementing waste segregation for some time. For example, in King George's Medical University (KGMU), a 4000-bed hospital in Lucknow, India, colour-coded waste bags and bins are used. Each bin is collected and taken to a centralized receptacle of the corresponding colour, except for the waste in yellow infectious waste bags, which is taken to an incinerator located away from the hospital.

According to Professor Kirti Srivastava, a radiation oncologist, and head of the environment department which oversees biomedical waste management and pest control at KGMU, 90% of the hospital's waste is non-infectious.

"Black bag general waste is taken away to landfill by the municipal authorities. Blue bag waste (metallic waste), white (sharp needles, syringes, catheters and other sharps) is being sent to an incinerator."

not produced carcinogenic dioxins and furans. It despite the upfront investment to switch to autoclaves, cost-savings over the autoclaved waste collection a lower rate by local companies. According to the government has taken the of phasing out incinerators, investing in 70 autoclaves infectious and sharp waste.

UP: KGMU Performs First Combined Liver-Kidney Transplant

KGMU first in UP to perform multi-organ transplant successfully

TIMES NEWS NETWORK

Lucknow: King George's Medical University (KGMU) became the first medical institute in the state to perform multiple organ transplant successfully on Wednesday.

The announcement was made by Vice-Chancellor, KGMU Lt Gen (Retd) Prof Bipin Puri while discharging 58-year-old who received liver and a kidney of a brain dead 20-year-old road traffic accident victim. Prof Puri said, "Marathon surgery on November 5 was a success and we are happy to discharge the patient."

For transplant, he said KGMU took help of experts from Max Hospital, Delhi and RMLIMS as saving a patient was of utmost priority.

When asked why heart transplant was not performed, though earlier it was claimed that university is ready for it, the VC said, "For heart transplant other than blood group, size of heart and lungs should also match. But such a recipient wasn't available in such a quick time. However, we are hopeful to conduct a heart transplant as soon as possible." Meanwhile, daughter of recipient Dr Rakshanda, who

KGMU to honour kin of brain dead opting for organ donation

KGMU will give guard of honour to family members of all brain dead patients who will give consent for cadaveric multi-organ transplant (CMOD). VC Bipin Puri, said, "It is necessary to provide utmost respect to the family members of brain dead victims for giving consent for organ donation so that people be made aware of CMOD." He praised organ donation counsellors Peeyush Srivastava and Kshitij Verma and nurses for their efforts to convince the donor family.

is also junior resident at KGMU's surgical gastroenterology department, said, "I, and my diabetic mother were willing to donate liver and kidney and surgeon scheduled on November 7, but it was God's grace that Meera Devi, mother of deceased Surendra, gave the consent for organ donation just two days before."

"Though there was concern about the transplant as it has been done a long time, I had trust in KGMU's doctors," she added.
